

CONSTITUTIONAL PROVISIONAL GOVERNMENT OF THE UNITED STATES
P.O. Box 1086, Sherman Oaks, California

September 26, 1961

Honorable Nikita Khrushchev
Prime Minister, USSR

United Nations Intervention for a "Free, Open Plebiscite" in the United States.

In the name of the people of the United States, whom I represent, and in view of the current administrative disorder in the United Nations, I appeal to you to present the following proposal to the United Nations. I denounce John F. Kennedy, usurping President of the United States, and repudiate, in toto, his speech before the United Nations on September 25, 1961, on international and internal grounds, as a liar, a hypocrite, and a murderer, on the following specifications:

INTERNATIONAL

He has destroyed within the United States, every right and freedom he proposes for member of the United Nations.

He presents himself as a champion of the United Nations Charter, yet he has, himself, subverted the Great Charter of the United States - our Constitution! He has overthrown it to gain his present office, through conspiracy with the criminals of international finances of Wall Street; and the international forces of the Vatican which intervenes all over the world at its will to cause disloyal Roman Catholics to turn traitor to their governments. He has already turned traitor to the Charter of the United Nations as he has turned traitor to the Charter of the United States.

He speaks of a "world declaration of independence", yet he has torn to shreds our sacred "Declaration of Independence" which established the foundations of freedom of our government.

He envisions the creation within the United Nations of a super-sovereign state, backed by an independent armed force to enforce peace, which would, and already has, undermine the sovereignty of the United States and of other states.

He praises the United Nations as an instrument of peace, yet he and his predecessors, to promote the international policies of enemy internationalists, have turned it into an instrument of war, "peace-maker" Dag Hammarskjöld himself perishing in a war which he had helped to instigate.

He states that for 15 years the United States has struggled for disarmament - a damnable BIG LIE! The economy of the United States, as everyone knows, has been surrendered into the control of these enemy internationalists, and survives only through profits gained through wars and preparations for wars. If disarmament were achieved, this Los Angeles area in which I live would disintegrate into economic chaos within 24 hours. Thus, the world must be kept in perpetually on the brink of war to promote profits for "Murder, Incorporated!". Murder is our business!

He speaks of a Berlin free from intimidation, yet conspired to blot out the government of Cuba in a campaign of war and assassination engineered by his instrument, that world assassin, Allen Dulles.

He speaks of the danger of men being "knifed in their homes", yet as he spoke a newspaper lay before my eyes reporting his conspiracy, through Dulles, to "knife" Fidel Castro.

He says we seek no territories, no bases, yet holds the Guantanamo Base thrust into the side of Cuba.

He demands that disarmament commence with outlawing the H-bomb, now that he and his gangsters have lost their initial monopoly over this weapon of terror, but when they still held that monopoly, incited our people to a murderous war with the cry: "Hit Russia Now!", while the USSR was still an ally.

He speaks of the rights of lesser peoples, but has conspired to defraud the sovereign American Indians of their resources and has conducted against them a perpetual campaign of genocide to destroy them as a people, in violation of the United Nations Charter - a process now going on.

He has appointed his brother, another Roman Catholic, as head of an organization of psychological warfare, which is a warfare of falsification and violence against the peoples of the world, particularly against the people of the United States who have been reduced to a state of psychopathic terror.

He has presented the Berlin issue as one of "freedom" when, in truth, it is an issue of perpetuation of NATO - the revived Holy Roman Empire which has, for centuries, bathed the world in blood.

INTERNAL:

He speaks of a "free plebiscite", yet he came into power through a conspiracy with the enemies of our people - the internationalists of Wall Street and the Vatican, which have destroyed all prospect of a "free plebiscite" within the United States. There can never be a "free plebiscite" anywhere in the world where the force of the Vatican is able to dominate internal policies of nations through their ignorant Roman Catholic adherents, who fear the Pope as they fear the Devil, and must obey his orders. Note Guatemala, Hungary, Cuba, and now Berlin.

He welcomed the commands of Pope John XXIII to Roman Catholics in the United States to vote for him because he is a Roman Catholic, thereby turning himself, and them, to treason.

He accepted huge financial contributions from international financiers of Wall Street and the Vatican who have long controlled both political parties in the United States and who have reduced our political institutions to a "one-party system" which he condemns abroad.

He conspired with the captive, seditious press, radio and television services of the United States to destroy freedom of information and expression in the United States, to prevent our people from learning the truth concerning the felonious crimes of the conspirators. So tight is the censorship that no word of criticism is permitted to seep through. Truth has become "Top Secret" in the United States.

E

842.1 His henchmen perpetrated every electoral crime known in the repertoire of "dirty politicians" - stuffing ballot boxes, multiple-voting, voting priests, nuns and citizens of foreign countries without right to vote, purchasing votes, false counting of votes, etc., to assure his election. Ask his brother Robert, who managed these crimes.

1961 Yet, in spite of all of these crimes, he never succeeded in making himself the choice even of voters kept in ignorance of the truth. He ended as a minority candidate who won office through crimes of treason which overthrew the "republican form of government" required by our Constitution.

Since his election he has carried the United States deeper into mad military adventures all over the world, on issues of no concern to our people, to fulfill his contract with the enemy internationalists who placed him in power: to protect Vatican properties in Laos - in Cuba where, in conspiracy with the Vatican, he waged a "holy war" against those who had won their freedom from the Wall Street "Batistas", and where he is, at this moment, engaged in further wars of aggression with the same secessionists - and now in Berlin where he promotes the philosophies of the Vatican, until recently, master-minded by Konrad Adenauer.

He has betrayed our youth, including non-Roman Catholics, into "holy wars" of the Vatican, to earn "blood money" of profits for our international enemies.

He has, through bribery of "foreign aid" and intimidation of armaments, created governments in foreign countries bound in loyalty to the Wall Street - Vatican conspirators --- a legion of "Batistas" --- to desolate their own people.

He has participated in the conspiracy which has bankrupted the United States to the staggering total of over one thousand billion dollars, expended in wars and preparations for wars; has abdicated the authority of the people over our financial system into the hands of international swindlers of the private corporation of the Federal Reserve Bank; has reduced some 50 - 60 million of our people to destitution; has prevented promotion of employment, schools, recreation, health; has reduced wide areas of our country to "disaster areas" of unemployment.

He stated prior to his nomination, and has repeated that statement frequently since (a statement which was the price of his election), that the Berlin issue justifies an H-bomb war, and in his state of schizophrenia and homicidal mania in which he is no longer able to realize the inconsistencies and brutalities of his own statements, is well able to push the button to consummate his pledge to the Vatican.

The above summary merely touches upon the major factors involved in the perils promoted by John F. Kennedy, the gangsters about him, and his predecessors, who have succeeded so well in subverting our free institutions; in "brain-washing" our uninformed citizens; and in controlling our armed forces, the FBI, the CIA and local police forces; that relief is denied us even through an internal revolution, until disaster has progressed so far that remedial action will become impossible. We are condemned to death either through an H-bomb war, or through internal economic catastrophe.

This man, John F. Kennedy, who proved himself publicly to be an unmitigated liar and murderer in his violences against Cuba, has in no sense reformed since that date, and has, before the United Nations, perpetrated the most shameless, blasphemous, public falsifications in the history of international diplomacy. He is no more to be believed today than he was at the time of the Cuban outrage.

In view of these facts, well known and amply documented, I demand:

- 1) That I be given an opportunity to address the delegates of the United Nations as a true representative of the point of view of the people of the United States, with which I am thoroughly familiar, with the same press, radio and television as that accorded to John F. Kennedy, in the cause of world peace and disarmament.
- 2) That the United Nations then cause a full investigation of the facts to be made, and that thereafter a "free and open plebiscite" be held in the United States under the auspices of the United Nations, with full freedom of press, television, radio and other means of communication assured; and with control over the forces of Wall Street and the Vatican established to prevent sabotage; to permit the election of a government representative of the people of the United States.
- 3) That negotiations for disarmament and peace be undertaken through such "free government".
- 4) That pending the election of such government, the outlaws who now run our government from Washington, be placed in international quarantine to prevent them from blasting the Planet Earth out of existence.

If the United Nations is to be merely a battle ground for political gangsters of the stamp of John F. Kennedy and those whom he represents; if the people of a nation are to have no access to its councils and cannot be heard except through criminals who happen, at the time, to represent them illegally; then far better if the United Nations, thus far an instrument of war rather than of peace, be dissolved.

OPEN LETTER

October 18, 1961

Honorable Nikita Khrushchev
Prime Minister of U.S.S.R.

Proposals for a Treaty of Total Disarmament Between
the US and the USSR

Your Excellency:

No specific proposals for world disarmament, to be used as a basis of discussion between the US and the USSR, have been advanced by the Government of the United States. No such proposals can be presented, in good faith, by our existing government. The de-facto government of the United States at the present time is composed of an "un-holy" alliance between the international financial monopolists centered in Wall Street, and the international political theocratic state of the Vatican, which masquerades as a religion. It is unrealistic to propose "co-existence" between "Communism" and "Capitalism". "Capitalism" - the system of economics controlled by "Big Money" - will, indeed, bury itself and is now in process of doing so, but in the process it will also "bury" millions of helpless citizens of the United States who have become the primary victims of its program of financial "colonialism". It is also unrealistic not to face squarely the fact that the forces of the Vatican are, today, responsible for poisoning world international relations, creating world hatreds with its double-distilled venom of falsification of the threats of "communism", as it has created such hatreds throughout its history, under its world strategy of "divide and conquer". Public officials of the United States have become the "puppets" - the "Batistas" - of these two forces in the United States as did those in Cuba. No solution for world peace and disarmament can be expected from such "captive" officials, any more than such solutions can be expected from the invisible forces which control them. The elimination of these two forces of international subversion is as important for the people of the United States as it is for the USSR.

These public officials - these "Batistas" - have overthrown our Constitutional government by a political coup d'état, and stand before our people and the world, openly and brazenly, as outlaws without legal authority. Legal government has disappeared from the United States. Any agreements negotiated with them are null and void, per se. Under these circumstances I, as a public official sworn to defend our Constitution, have full authority under my oath of office, to assume the authority of government, which I have done, in principle, to the discomfort of the outlaws who have not dared take issue with me at the risk of exposing their crimes. In my official capacity, therefore, I now offer the following proposals for total disarmament between the US and the USSR, which I am Constitutionally and legally empowered to sign in defense of the Constitution and of the people whom I serve, in the absence of any other lawful government.

The crux of the dispute between the US and the USSR is the purpose of the international forces which govern our country never to yield on their monopolistic control of our economy, even to the point of total disaster. This economy is founded on the exploitive, bankrupt order of profits (usury), which survives only through wars and preparations for wars, demanding over 45 billion dollars subsidy of war profits annually. Once that issue is settled within the United States, to restore our economy to the control of our people under the protection of our Constitution from which it has ever been excluded, the remaining differences dissolve as a natural process. I have developed a program of economic reconstruction under our own "American" institutions, which is already widely accepted, to meet this issue, and am, therefore, able to speak of negotiations on sound economic principles. The following are my proposals:

1. The US to set aside its present unConstitutional, exploitive, competitive economy of private profit for the benefit of national and international financial monopolists, which has already carried our country to economic disaster, and to replace it with a Constitutional, cooperative economy controlled by our people.
2. The US and the USSR to agree to the principle of non-interference in the internal affairs of one another, permitting each to evolve in accordance with its own destiny and "way of life"; and to cooperate with one another at points of contact, in good will and for the welfare of one another and for the welfare of the nations and peoples of the world, leaving decision as to which is the better, to posterity.
3. The US to withdraw from support of NATO. The USSR to withdraw from support of the Warsaw Pact.

The world to be united in good will - not divided on lines of political, economic and ideological differences.

4. a . The US to withdraw support from Nationalist China; China to be reunited under the Republic of China; the Republic of China, the German Democratic Republic, and the Republic of Cuba to be recognized by the US; The Republic of China and the German Democratic Republic to be admitted to the United Nations, the former replacing Nationalist China.

b . The US and the USSR to abstain from economic and political penetration of Latin America, Africa, and other areas of the world.

c . Both governments to cooperate to improve the economic welfare of economically backward nations.

d . With the establishment of free economies and free political institutions throughout the world, permitting a re-analysis of the problem of German reunification, the US and USSR to cooperate to facilitate such re-unification, if and when desired by the peoples of both East and West Germany. In the meanwhile, Berlin to be a Free City, the US and USSR to cooperate to maintain its political and economic strength. All foreign troops to be withdrawn from East and West Germany forthwith.

5. The US and USSR to agree to renounce warfare as an instrument of foreign policy, and to establish that principle as basic in international relations, through the United Nations.

6. Under the above-state principles, the US and the USSR agree to immediate, total disarmament; the destruction of stock-piles of nuclear weapons and facilities for their production; of biological and chemical weapons; and of all weapons except such as may be necessary for internal security; and to prevent the production and use of such weapons by other nations, through action in the United Nations. Trusting in the integrity, and sanity, of one another, which demand total disarmament as necessary for world survival and world peace, the execution of these provisions to be supervised by teams of experts of both countries, each step in the execution of these provisions to be heralded to the world as cause for celebration and rejoicing that these burdens and apprehensions are being removed from the shoulders, and consciences, of the peoples of the world.

7. With the dangers of wars of annihilation removed, the purpose of the United Nations to be changed from that of referee between warring groups, and as a political battlefield impairing the sovereignty of nations, each group promoting its own political, economic and military advantage at the expense of the rest; to that of functioning as coordinating agency for mutual cooperation and assistance of all members and of nations of the world for the welfare of peoples: economic, cultural, humanitarian, under broad concepts of the realities of the brotherhood of man.

8. The Executive Body of the United Nations to consist of representatives of the US, the USSR, Great Britain, China, Africa and Latin America.

9. In view of the historical record of the Vatican in promoting international subversion and violences, in violation of its own religious teachings, and while permitting and defending the right of its adherents to practice their religion freely, the US and USSR agree to withdraw all political, economic, diplomatic or other recognition or support from the forces of international Vaticanism, which has ever been the enemy of political states of the world, as well as the enemy of all spiritual philosophies other than its own, which have refused to yield to its ambitions to establish a world Theocracy antagonistic to the rights of free peoples everywhere, to the end that this international institution may be blotted out for all time.

Trusting that the above suggestions and realities may constitute a note of sanity in the midst of the war psychosis of the United States, I am

Respectfully yours,

Herbert C. Holdridge
